

CONSTRUCTION INDUSTRY

Brand: Mehta Solutions

Product Code: case993

Weight: 0.00kg

Price: Rs500

Short Description

CONSTRUCTION INDUSTRY

case study

Description

Q1. This effect is the result of a combination of a variety of factors that can be traced back to the building's design building materials, and the cumulative effects of low order characteristics on human health:

- 1. Sick building syndrome**
- 2. Ionizing radiation**
- 3. Non-ionizing radiation**
- 4. Pollutants**

Q2. _____ represents all aural sensations experienced by the user due to noise at all frequencies, levels, and dynamics:

- 1. Hydrothermal discomfort**
- 2. Acoustic inconvenience**
- 3. Visual discomfort**
- 4. Olfactory discomfort**

Q3. This is the influence of the production of toxic compounds by the construction and operation on the site itself & neighboring surface:

- 1. Air pollution**
- 2. Soil pollution**
- 3. Acid rain**
- 4. Smog & other air pollution**

Q4. _____ opens up new markets and news competition from the construction sector in the new member states.

- 1. PU Enlargement**
- 2. CU Enlargement**
- 3. DU Enlargement**
- 4. EU Enlargement**

Q5. Installing energy efficient appliances & fixtures & changing irrigation practices & behavior can reduce water consumption by 30 percent

- 1. Water conservative**
- 2. Recycled content materials**
- 3. Materials reuse**

4. **None of the above**

Q6. This new system was intended to reduce manipulations in the tendering process:

1. **Institutional Reforms**
2. **Mandatory Tendering**
3. **Mandatory Tender Evaluation System**
4. **Mandatory Construction Supervision**

Q7. It provides a graphical representation of the individual measured values in a data set according to the frequency of occurrence:

1. **Check-sheet**
2. **Histogram**
3. **Checklists**
4. **Pareto Analysis**

Q8. _____ sets out the vision for a future European Construction sectors as a key element in achieving the Lisbon objectives:

1. **Smart Construction**
2. **Building the future**
3. **Strategies for innovation**
4. **Strategic alliances**

Q9. ECCREDI stands for _____.

Q10. LEED stands for _____.

Part Two:

- Q1. What is ‘Mobile Document Management System’?**
- Q2. Briefly explain the Lean Production.**
- Q3. Define Green Building.**
- Q4. What is slowing down Penetration of Green Construction?**
- Q5. The cost-effective construction technologies would emerge as the most acceptable case of sustainable technologies in India. Comment**
- Q6. Explain what lessons are required to be learned from International experiences and its own past experiences in Construction Project.**
- Q7. Explain the construction of the Euro Tunnel.**
- Q8. State the benefits of the construction of the Euro Tunnel.**
- Q9. Explain the Government Role in BOT Projects. Give the Recommendations for Encouraging the Private Sector Involvements in BOT Projects.**
- Q10. Explain the Role of Construction Industry in Climate Change.**
- Q11. What are the areas of design that are to be and shall be addressed in order to achieve sustainable built environment?**

Details

- 1. Case study solved answers**
- 2. pdf/word**
- 3. Fully Solved with answers**
